1 Information for Educators

Teachers, lecturers and parents are encouraged to present IMedC as an extracurricular activity for students interested in medicine, biology and the health sciences. We provide dedicated resources to help educators integrate the competition into their teaching and support their students.

IMedC helps students develop their reasoning by engaging them with a variety of medical problems built on diagrams, data and cases. These problems are suitable for use as assignments or projects, and teachers and institutions can also use IMedC material in extracurricular clubs or workshops.

Through IMedC, we aim to motivate a wide range of students to explore medicine, while offering exceptional students a chance to test their skills and deepen their understanding beyond the traditional curriculum.

2 Special School Awards

Schools and teachers with high participation and strong performance in the competition are eligible for special awards. While these awards do not include cash prizes, they recognize the dedication of schools and the commitment of individual educators:

School Award for Most Participants 1 AWARD	Awarded to the school with the highest number of registered participants in the Qualification Round.
School Award for Most Finalists 1 AWARD	Awarded to the school with the most participants qualifying for the Final Round.
School Awards for Excellence MULTIPLE AWARDS	Presented to schools demonstrating strong overall student performance, fostering a supportive environment for participants, or showing exceptional commitment to medical education through IMedC.

How do schools participate to win these awards?

Schools automatically participate when students register using the school's name. Please ensure all students enter the school name accurately and consistently. We also encourage teachers from participating schools to create a teacher account.

3 Teacher Account

Educators can create a teacher account to access the IMedC teacher portal. This platform allows you to:

- Follow your students' results and download their certificates
- Pay the Semi-Final Round registration costs for a group of students
- Supervise the Semi-Final Round exam

Create a teacher account here: https://imedc.org/teacher-registration

4 Group Payment and School Partnership

Participation in the Semi-Final Round requires registration costs of 15 EUR per student. We offer a convenient group payment option for educators and institutions to manage these costs for multiple participants at once. This feature becomes available in the teacher account after the Qualification Round results are announced.

With a school partnership, your school gets one school account. From 25 Semi-Final Round participants, the registration costs drop to 13 EUR per participant; above 50 participants, printed certificates are shipped to your school. The partnership is free and non-binding: https://imedc.org/school-partnership

If you wish to establish an IMedC group at your institution or incorporate IMedC problems into your lessons or project work, please get in touch (teachers@imedc.org). Additional teaching material and posters are available on our website.
